POSTOFFICE ADDRESS:—Caixa 288.

RIO DE JANEIRO, SEPTEMBER 10th, 1901.

Notice is hereby given that Mr. A. J. Lamouroux has given his procuration to Sr Arnaldo José Dias de Miranda for the administration of *The Rio News*, and to Sr. Manoel Joaquim Moreira Maximino for the administration of his printing office, known as the Typographia Aldina, during his absence. The procuration given to Mr. Frederick Pfeffer is hereby revoked.

In our issue of June 18th we referred to the disclosure, made at that time, of latent elements of discord in the ranks of the dominant party in S. Paulo and, although the threatened rupture was then averted, we expressed the opinion that the peace would not be lasting and that the lack of intimacy thus shown would perhaps produce important results in national politics. A month later it seemed that an open rupture had become inevitable, but again a truce was arranged. Now, however, the disruption of the party has been consummated and on the 7th inst. the secessors, whose leader is ex-President Prudente de Moraes, have issued a manifesto explaining the causes that have led to this result. It appears from this manifesto that the lack of harmony dates from the beginning of the administration of President Campos Salles, when it was discovered that the president, repudiating the party that had elected him, was sedulously engaged in organizing a personal party. It was observed that he systematically refrained from consulting the ex-president, who is perhaps the only republican leader that has any real prestige among the conservative classes of the country, and, as we all know, it was soon apparent that he intended to destroy all the valuable work of party discrimination accomplished in 1897 and to restore the political cahos that existed before that year.

In our opinion the ex-president should have broken with him at once. Had he done so, he would perhaps have been able by timely opposition to save the country from many disasters that have occurred during the present administration. But—better late than never, and it is to be hoped, now that the rupture has been consummated, that no time will be lost in the important work of organizing a strong opposition party. We understand that a convention for this purpose will be held in S. Paulo on the 12th prox.

PRESIDENT MCKINLEY

On the 6th inst. President McKinley was dangerously wounded by two shots from a revolver at Buffalo, where he was attending the Pan-American Exposition.

The author of the crime, who was immediately arrested, is a young man whose name is said to be Leon Czolgosz and who is described as an anarchist. It is stated that he is a native of Cleveland, Ohio, and is of German-Polish origin.

As was to be expected, the crime has excited much indignation against the criminal and

much sympathy for the President and his family. At the time of the prisoner's arrest it was with great difficulty that the police prevented the people from lynching him. Letters and telegrams expressing the deepest concern have been received by the President's family and by the government and congress of the United States from all parts of the world. Among the messages sent from Brazil are those of the government and both houses of congress and of state governments and legislatures.

We are pleased to be able to state that up to the date of the present issue of *The Rio News* the greater part of the reports received concerning the hope of the President's recovery

THE FINANCIAL SITUATION.

At the general meeting of shareholders of the North Brazilian Sugar Factories, held in London on July 16, the chairman made a statement from which we extract the following:

"We have had this year a larger crop than for some years past; but unfortunately the economic conditions prevailing in Brazil have been so serious that the markets for our products have been disorganized and about as bad as they could possibly be.... The country has been passing through the most acute economic crisis.... Owing to financial measures, which were adopted with a view of improving the foreign credit of the country, the internal conditions have been simply upset. The internal currency of the country has been so violently affected by these financial measures that practically people depending upon agricultural operations, where the payments of wages have to be made in the internal currency of the country, have been ruined wholesale, and I believe I am not overstating the case when I say that in the great commercial centres the majority, to state the thing well within the mark, of banks and trading houses have been ruined. A vast number of banks have been closed, and practically the business of the country has been suspended."

Mr. Furutti, U. S. consul at Bahia, describes

the financial crisis as the severest ever felt in that part of Brazil. "It often costs the producer," he says in a report to the state department, "more to gather his crop and to get it to market than he can hope to receive, while his money buys little more than oil. Thus, in 1898, the value of the milreis was 11 cents in United States money, while to-day it is worth 25 cents, more than double, but even meat, fruit, house-rent, board, clothing, etc., have not decreased 5 per cent., and in many instances the necessities of life remain indefinite as they were when the milreis was worth but 11 cents.... Almost everything one purchases...has a stamp on it,... to say nothing of the increase of the already high tariff on imports, which went into effect on Jan. 1, 1901, raising the portion of duties payable in gold from 15 1/2% to 25 1/2%.... Two of the three native banks shut their doors on Jan. 29, 1901, and, although much effort has been made to reopen them, their future is problematical.... It was thought that the only remaining native bank, one of the oldest in Brazil, would stand the strain,... but it too closed its doors on April 11, 1901.... As a great number, if not all, of the merchants, both importers and exporters, are either directly or indirectly concerned in these failures, it cannot but have a most serious effect upon all financial operations."

—President Campos Salles has decided to pay duties on the merchandise that he has imported. Even so, he is much more fortunate than the rest of us, who have to pay not only duties, but also many other taxes and maintain profits thereon, on every imported article that we buy.

—The state government of S. Paulo has notified the Socorebina company that within 20 days it must pay into the state treasury the sum of 1,215,990.⁸⁶ amount of the company's indebtedness on account of the Companhia Itambé and Companhia Navegação Fluvial Paulista.

—Dr. Edmundo Prado, one of the most talented writers in Brazil and a member of a prominent S. Paulo family, died in the city of S. Paulo, on the 20th ult. of yellow fever contracted in Rio de Janeiro. Communications have been received from all parts of the country, showing how deeply his death is deplored.

—Luiz Pinto de Andrade, illegally arrested by police authorities on account of the political disturbances on the 22nd ult., has been set at liberty in virtue of a writ of habeas corpus. The court, ordering the prisoner's release, censured in very strong terms the conduct of the police authorities, who, the judges state, furnished false information to the court.

—The discussion of the general revenue bill commenced yesterday in the chamber of deputies. The revenue for 1902 is estimated in the bill at 42,576,665.⁶⁶⁷ in gold, and 255,011.⁶⁰⁰ in silver in currency against 27,039,705.²⁷⁷ in gold, and 277,883.⁰⁵ in silver in currency collected last year and the estimate of 46,191,667.⁰⁰ in gold and 256,082.²⁶ in silver in currency in the budget for the present year.

—On the 3rd inst. there was issued in this city a manifesto of Rio Grande federalists. It is signed by Ruiel Cadete, Pedro Macêdo, Barros Cassal and Alcides Lima. In Rio Grande do Sul a federal manifesto, signed by Marshal Augusto César da Silva, Wenceslau Escobar and others, has also been issued. We understand that a convention of the party will be held at Bagé.

—It has been asserted that the Banco da Republica will not furnish information in regard to the deputies who have abusively obtained money from that establishment. In our opinion, however, the bank will not fail to furnish the information, if the chamber really wishes it. If the chamber does not wish it, the investigation is a farce that is very discreditable to the chamber.

—On Thursday, by a vote of 75 to 43, the chamber rejected a motion of Deputy Serzedello to ask the government for information in regard to custom-houses said to have been established by the government of Venezuela in territory east of the Rio Negro.

—"A move is on foot," says the *Buenos Aires Herald*, "between the flour merchants of this city in order to improve the condition of the flour markets of Brazil, which they have finally wrested from the North American trade after much hard labor and no inconsiderable sacrifice.... There is not a week that goes by but we ship a cargo of flour to Brazil, and an international understanding would certainly prove beneficial to parties at both ends of the deal."

—It is stated that Dr. José Higino, a gentleman who won a very honorable reputation as judge of the supreme court, will represent Brazil in the Pan-American congress. It is reported that he will be paid 50,000\$ in gold and that his two secretaries will each receive 18,000\$ in gold. The appropriation of 150,000\$ in gold for Brazil's expenditures at the congress has passed the chamber of deputies and will be sent to the senate. In this body the committee on finance reports in favor of the appropriation, but the committee on the constitution proposed to reduce it to 75,000\$.

—On Monday, the 26th ult., the proceedings of the chamber of deputies were stormy, acrimonious and scandalous. During the debates deputies addressed each other in the most violent and insulting language. All this was apropos of a motion offered by Deputy Barbosa Lima for appointing a committee for investigating the question of the accounts of some of the deputies with the Banco da Republica, from which they are said to have abusively received money. On the following day the motion was voted with an amendment, declaring that the committee should be composed of Deputy Barbosa Lima and such deputies as he should select for this purpose. As far as we are aware, this method of choosing the members of a committee has never before been adopted by any legislative assembly.

—The cigar-makers of Rio have sent to congress a petition in which they show that burdensome taxation is destroying the tobacco industry of the country. This taxation, which increases prices and diminishes sales, is forcing manufacturers to reduce not only the wages but also the number of their operatives, so that the sum now paid in wages is considerably less than it was some years ago. In the district of S. Félix, for instance, the wages paid amount to only 63,000\$ a month, against 122,000\$ a month in 1897. In other districts there is a similar state of affairs, which necessarily causes much suffering among the poorer classes. Many houses have been vacated because the tenants are no longer able to pay rent. In small houses, formerly occupied by a single family, three or four families are now obliged to crowd. Indeed, that congress intends increasing still more the tax on tobacco the Bahia cigar-makers vigorously protest against this ruinous policy of hindrance to trade.

—The period of four months fixed by the constitution for the congressional session has now expired and during that period, we regret to say, very little legislative work was done. The discussion of the army and navy bills was not finished and that of the budget was not even commenced. It is manifestly injurious, however, to postpone congress alone for this lamentable state of affairs, since there can be no doubt that the government is equally to blame. The ministers of finance and industry had up to the end of this period failed to prepare their reports, and it was only in the middle of the fourth month that the estimates were sent to congress. Such scandalous waste of time, repeated year after year, has contributed powerfully to bring the government and congress into disrepute and to increase the prevalent discontent. Congress has voted a resolution extending the session to the 2nd prox., after which there will, of course, have to be further extensions, which will probably carry the session, as usual, to the end of the year. In the debate on the resolution in the chamber of deputies there was offered an amendment limiting remuneration to congressmen in actual attendance during the extension, but this amendment was overruled by the chair.

CRICKET AT SANTOS.

The Fleet arrived in Santos Saturday 17th August, and cricket matches were quickly arranged with the S. P. A. C. and S. A. C. The São Paulo match was played the following Tuesday and the Fleet, after being badly beaten, journeyed back to Santos next morning to play at José Menino. Heavy rain had fallen during the night, so that the ground was in a very sodden condition and under water in some places. Many of the players, at the close of play, judging by their clothes, looked as though they had been taking part in a hard game of "footer." Through some delay in town the game was late in commencing, with the disappointing result that it had to be brought to a close just when it had reached a most interesting stage as a soirée had been arranged to take place in the evening at the International Club São Vicente.

The soirée was a great success, although there was a great scarcity of ladies. It is to be hoped the next time the Fleet visit Santos they will be able to make a longer stay.

S. A. C. v. FLEET (H. M. S. Cambrian, Nymph, Basilisk).

Played at José Menino 21st August.

The Fleet won the toss and decided to take the field. Santos opened their innings badly, Burgos, being bowled the first ball of the match by Ames, in trying his old trick of placing the ball through his legs. Lloyd and Tomlinson gave little trouble, things looking very black until Murray and Miller got together. Murray, however, was too impatient and was clean bowled by Kewney. Grey joined Miller, and although he only made 7, together they put a different complexion on the game. Tracey gave no trouble beyond worrying the field as a left hander. Elworthy followed, and runs now came quickly, both he and Miller hitting freely, and they ran the score up to 157. Just before Elworthy fell, a victim to Kewney, Miller was badly missed at point. The innings closed at a quarter past three, Jeffery not out 4, and Miller who had played an innings in his best style, not out 103. For the Fleet, Kewney bowled well and with increasing success.

After a short interval during which the Misses Ellis very kindly dispensed tea, the game was resumed, the Fleet sending in Illiewiez and Trewhby to face the bowling of Tomlinson and Miller; playing carefully they hit up 19, when Trewhby was run out; with only 2 runs added, Illiewiez was bowled by Miller. Watson and Fitzherbert settled down and looked like making a stand, when at 44 Watson was very amanently taken by Burgos behind the wickets. Fitzherbert continued his careful play until he skied a ball off Miller and Tomlinson held it. At call of time Kewney was not out 9 and Nicholson not out 7.

PORTO RICAN COFFEE TRADE.

Merchants of the city of San Juan, Porto Rico, are alarmed about the importation of Brazilian coffee, which the removal of the tariff has made possible. The steamship "Ponce" brought two consignments yesterday, one of 120 and the other of 113 bags. This coffee can be sold here at about one-half the price of the Porto Rican product, thus destroying the market for the latter.

The merchants of Manati met to-day and resolved not to trade with the importers of coffee from Brazil, and meetings were also held in other towns. Gov. Hunt has consented to ask for relief from Washington by the enactment of a measure declaring that the proclamation does not refer to the special duty of five cents on coffee.

Fearing public sentiment, the importers who arrived to-day announced that the coffee received would be shipped back again by the next vessel. The newspapers, considering a favorable construction of the law impossible, are urging a boycott against the dealers until congress can act in the matter.

The 233 bags of Brazilian coffee which arrived at San Juan on the steamship "Ponce" from New York and was allowed to enter free of duty in competition with the Porto Rico article, have been reshipped to New York by the steamship "Maracalho." The coffee was taken from Brazil to New York and imported here by Lomba & Co. The trouble arose through the removal of the tariff of 5 cents per pound on coffee.

When the coffee arrived Lomba & Co. said they had only received it on consignment. There was much popular disfavor and the firm at first sought delay. The people and the merchants, however, demanded that the goods be sent back to New York by the first steamship. The merchants have signed an agreement not to import any Brazilian coffee and Lomba & Co. head the list of signatures.

The news that Secretary of the Treasury Gage is considering this matter has been joyfully received in Porto Rico.

"I send you by parcels post a Dunlop Tyre which has had a record experience, having been in daily use on the back wheel of my bicycle since 1896, and done fully 15,000 "tropical" miles. The front tyre like Charlie's Aunt, is still running and absolutely flawless, although fitted at the same time as the one now sent to you. I think this fact speaks volumes for the durability of your tyres."
